

Sebring Composites Ltd – Mable, Kidderminster

Job Title: Fibreglass/Composites Laminator(s)

Company Overview:

Sebring Composites Ltd is a fibreglass product manufacturer based in Worcestershire, U.K. specialising in products for the Automotive, Marine, and Leisure industries. As the business expands, we are looking for motivated and organised individuals with attention to detail and a can-do attitude to join our team as Composite Laminators.

Whilst manufacturing experience is desirable, it is not essential; a keenness to learn and work as a team is more important.

Duties and Responsibilities include:

- Preparing moulds for laminating
- Read and understand layup drawings and instructions
- Perform hand-lay up
- Have a knowledge of various resins and fibreglass materials
- Prepare all gels, resins and fibreglass materials for application
- Releasing products from moulds
- Housekeeping
- Use the relevant PPE as required

Successful candidates will play a crucial role in our manufacturing processes and be part of a friendly dynamic team learning ever developing processes in the composites industry using a variety of methods and materials.

Other desirable attributes:

- Finishing of parts including trimming and polishing to the required standard
- Repairing moulds and GRP finishing as required
- Application of release agents to plugs and moulds
- Be willing to learn and share your experience and knowledge

Benefits:

- Competitive salary commensurate with experience.
- Opportunities for professional development and training.
- Involvement in groundbreaking projects including sustainable composites
- A dynamic and collaborative work environment where your expertise and creativity are valued.

If you believe you are our next team member, please send your CV to hello@sebring-group.com and visit sebringcomposites.co.uk to learn more about us.
